Esmer Marble's natural stone quarries are operated in accordance with high occupational health and safety standards.

The company has four quarries in operation that are Supren Quarry , Onyx Quarry and Holanta Quarry in Eskişehir with Beige Marble Quarry in Bilecik.

*The products in each **natural stone** quarry are mined with special methods and processed in the factory based on the demand of our customers from all over the world.*

Marble We Serve Quality You Deserve

About Us

*EsMer, which started its mining activities in 1969 by Unal family and was established as a factory with the same name in 1996, is one of the leading companies in **Turkish natural** stone production and trade with its own quarries.*

*As **EsMer Marble**, we have been producing and supplying **tiles, slabs, and blocks** and processing in the ordered dimensions together with the mining enterprises. Combining years of experience, knowledge about the product and sector with high-quality understanding, **EsMer** carries out outstanding projects in more than 40 countries around the world today.*

*Our mission is to represent **Turkish natural stone** at the highest level by producing excellent quality products for all our customers and exclusive projects and to carry out our works with high added value. We aim to be a **Turkish natural stone company** preferred by brands from all over the world in production, supply, and sales.*

*Our vision is to be a reliable, desired, and best-known company in the **premium natural stone production** and supply in worldwide. We aim to achieve this milestone for ourselves in the sector by contributing to national and international projects.*

*In the new term, we are investing for our "**Premium Stone Collection**" and never be thinking to change our motto of "**Marble we serve, the quality you deserve**".*
